

# Cara highline

The trend, the privacy with minimal design As a part of the cara family, cara highline is answering for open areas with a privacy addition. You can be in the lounge space, but you can still feel alone and comfortable while checking you mails or having a call. With its medium and high options, highline is a perfect and comfy solution. Feel at home, close your eyes and have a rest.

As the designers, we believe that cara highline is absolutely a simple design touch to fulfill the trends and privacy solutions. Feel at home. close your eyes and have a rest: this was the target before design and the result is amazing.
